

AYUSH PANGAONKAR

Python Full-Stack Developer | React.js | Django | REST APIs | MySQL
Pune, Maharashtra | +91 8788925950 | ayushpangaonkar1@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Python Backend Developer with hands-on internship experience building REST APIs using Django and Django REST Framework, integrating MySQL/PostgreSQL databases, and supporting live production applications. Skilled in backend logic implementation, API testing with Postman, and JWT-based authentication. Quick learner with strong foundations in DBMS, full-stack development, and Frontend concepts, seeking a fresher role in software/backend engineering.

SKILLS

Languages & Frameworks: Python, Django, Django REST Framework (DRF), JavaScript, React.js, HTML, CSS, SQL

Databases: MySQL, PostgreSQL, SQLite

Tools & Platforms: Git, GitHub, Postman, PyCharm, VS Code, Power BI, Tableau

Core Concepts: DBMS, RESTful API Design, Authentication & Authorization (JWT), Backend Architecture

EXPERIENCE

Software Engineer Trainee — The Data Tech Labs, Pune

Jan 2026 – Present

- Designed and maintained backend REST APIs using Django REST Framework for production-level applications.
- Integrated MySQL databases with Django applications to improve data handling and query efficiency.
- Tested and validated API endpoints using Postman to ensure reliability before deployment.
- Collaborated with the team on debugging, code reviews, and deployment using Git and GitHub.
- Worked on live production-level projects involving API integration and backend logic.

AI & Generative AI Intern — YBI Foundation

Mar 2026 – May 2026

- Learned core concepts of Artificial Intelligence, Machine Learning, and Large Language Models (LLMs).
- Explored AI tools for automation and content generation, and practiced prompt engineering techniques.
- Applied AI-assisted problem-solving methods to sample real-world use cases.
- Practiced prompt engineering techniques and AI-assisted problem solving

PROJECTS

Smart Resume Screening — React.js, Django, MySQL, NLP, Rest APIs.

- Built a full-stack web application to parse and analyze resumes using React.js and Django REST backend.
- Integrated the LinkedIn and Naukri API to recommend live job opportunities based on extracted candidate skills.
- Applied NLP techniques for keyword matching and candidate-job fit scoring and Recommending Jobs.
- Used MySQL for backend data storage, enabling fast retrieval and processing of resume information.

AI Mock Interview Bot — Python, OpenCV, NLP, MySQL,

- Developed an AI-powered Mock Interview Bot using Python and Tkinter for automated interview simulation.
- Implemented NLP-based answer evaluation and scoring to assess candidate performance and provide feedback.
- Integrated OpenCV and Pillow for real-time webcam interaction and image processing during interview sessions.
- Designed and managed a MySQL database for storing user profiles, interview records, and performance data.

EDUCATION

Bachelor of Technology — Electronics and Telecommunication Engineering

Nov 2022 – Jun 2026

Walchand Institute of Technology, Solapur | CGPA: 8.36

CERTIFICATIONS

- IBM Generative AI in Software Development
- AWS Cloud Foundations
